PREFATORY NOTE

This index undertakes to deal only with the printed reports of administrative officers, legislative committees, and special commissions of the states and with governors' messages for the period since 1789. It does not refer to constitutions, laws, legislative proceedings or court decisions, except in so far as they happen to be found in the class of documents above mentioned. It attempts, on the other hand, to furnish a list, as complete as possible, of all the documents and messages which fall within its scope, in whatever form they may have been published, whether separately, in collected documents, legislative journals or volumes of laws, and to indicate the volume in which they may be found. In general, unless otherwise indicated, the material indexed is in the New York Public Library. In some cases reference is made to reports and messages prior to 1789, and to publications other than public documents which it was felt would be helpful to those likely to use the index. Although these have been included no claim to completeness is made except in the case of the documents and messages since 1789. In addition to furnishing a list of reports and messages, the index undertakes to supply a reference by volume and page to all material of economic importance which they contain, with the exception of that contained in the reports of bureaus of labor. The reason for this exception is that these reports have already been indexed by Carroll D. Wright, late United States Commissioner of Labor,[1] in a volume published by his department in 1902. Although the index is confined to matter of economic bearing, the term " economic " has been given a broad interpretation. In view of this liberal interpretation it is believed that the index will constitute a useful addition to the resources of students of almost any aspect of American history.

It will be seen that the present index differs both in scope and character from R. R. Bowker's " State Publications," the valuable pioneer work in this field. It is narrower in scope than " State Publications " which aims to present a list not only of reports and governors' messages but of all state documents; but in the field which the present work covers it contains not only a more complete list of documents than has hitherto been published but also an index of their contents in so far as these have an economic bearing.

Each volume is divided into two parts. Part I contains references to general sources of information and descriptive matter found in the documents. Part II contains references to particular series of reports, and particular topics, arranged alphabetically by topics. The references under each topic are divided into two groups, viz., " serial " and " non-serial." Within each of these divisions the arrangement is chro-

nological. Anyone desiring information on any particular topic will, therefore, look for that topic in its alphabetical order in Part II. Numerous cross-references will, it is hoped, make it possible to discover with little difficulty all the material bearing on that topic. It is to be remarked that the division of serial reports into more than one series occurs whenever there is a change in title, in the authority making the report or in frequency of issue. It will be seen that this division is not an arbitrary one. It is made in the belief that the reason for it can be more clearly shown in this way than by a narrative explanation.

Uniform entry words for subjects recurring in different states will be retained throughout the series. It will thus be possible to make a study not only of the historical development of an economic subject as reflected in the documents of an individual state but also to make a comparative study of that development as it has taken place in the country at large. To accomplish this purpose it has been necessary to make the selection of entry words without reference to the peculiarities of local usage, such peculiarities being recognized in the case of each state by cross-references. The abbreviations employed are believed to be sufficiently obvious to make a table of them unnecessary. Unless otherwise stated the size of the books is octavo.

A feature introduced in the New York part of this index, and not employed in the preceding parts (i. e. Maine, New Hampshire, and Vermont), is the system of references from locality. This feature is made a part of the Rhode Island volume and will be retained in succeeding issues.

The present volume has been preceded by four similar volumes, confined to the states of Maine, New Hampshire, Vermont, and New York, respectively. It will be followed by others, each devoted to a single state. The work when completed will, therefore, furnish an index to the economic material in the reports and governors' messages of all the states of the Union.

In the preparation of the index for Rhode Island the collection of the New York Public Library has been used as a basis. The collections of the Rhode Island Historical Society, the Library of Congress, the Bar Association of the City of New York, the New York State Library, and the Rhode Island State Library have been examined. One of the most complete collections of Rhode Island material is the "Rider Collection of Rhode Island History" in Brown University Library. In addition such bibliographical works as Bartlett, Brigham's Bibliography of Rhode Island History,[2] Bowker, Sabin, etc., have been used.

The assignment of location is intended merely to show where the particular copy of a document, not in the New York Public Library, and which was examined for entry in this index, is to be found. It does not mean that it is to be found only in the library indicated.

COLLECTED DOCUMENTS

Rhode Island had never, up to 1906, published that record of her legislative proceedings which other states of the Union do publish in the form of House and Senate journals. Nor has she until within two or three years had a file of what might properly be called "Collected Documents." Her file of session laws has been the repository for those executive reports, messages, etc., which, in other states, are usually found in the collected documents. Not until 1902 did Rhode Island publish a volume, which, under the title "Reports presented to the General Assembly," is the first of a series of genuine "Collected Documents." The volumes collated below are in reality the session laws. Up to May, 1817, the issues of the session laws were in folio form, since then the form has been an octavo. These session laws comprise the current public and private acts, and, until about 1850, such executive reports of a specifically administrative character as were ordered to be published by the General Assembly. Up to 1850 the reports were not separated from the acts and resolves with any regularity, being found anywhere in the volume with no regard for any systematic arrangement. In January, 1850, was begun that segregation of reports from the acts and resolves which has gradually developed into the present absolute separation. At first the reports so segregated were not numbered and they formed part of an appendix which was paged consecutively with the acts and resolves. Soon after, in January, 1852, reports were for the first time issued as portions of the appendix with individual paging, although a portion of the appendix continued to be consecutively paged with the main volume. Later, in January, 1863, the reports began to form a numbered series of public documents, published as an appendix, to the Acts and Resolves. In 1902 this form was abandoned and the reports were issued in a volume by themselves, called "Reports presented to the General Assembly." A little irregularity still existed in 1902, which, it is believed, is made clearer by the collation shown below than it could have been made by a narrative explanation. Up to January, 1850, the volumes collated below had no title pages. At that session, viz., January, 1850, a title page and the designation, in print, of "Acts and Resolves" was adopted. This designation of "Acts and Resolves" has been retained uninterruptedly for the title page. Beginning with May, 1873, the caption "Acts, Resolves, and Reports" began to be used on the cover of those issues of the Acts and Resolves which were accompanied with administrative reports.

In the collation given below the compiler has carried this distinction from the January 1850 issue.

Popular reference to these volumes is variously as schedules, Acts and Resolves or Acts, Resolves, and Reports, for those session laws accompanied by reports of officers. Schedules are commonly understood to be the earlier Acts and Resolves, although there is no fixed time when this reference ceases to be employed. The trade applies it to more recent volumes than do the bibliographers.

The General Assembly has always, up to within very recent years, held several sessions during the year, a "Schedule" being issued for each sesssion. During the colonial period two sessions are occasionally found issued as one Schedule. The charter of 1663 provided for two sessions annually, in May and October, extra sessions, however, being frequent as is shown by the following collation. The number of annual sessions was fixed at three, two regular, in May and October respectively, and an adjourned session, by the constitution of 1842, changed to two, one regular, in May and an adjourned session, by an amendment passed in 1854 and to one, in January by an amendment passed in 1900.

A word of caution should be given to collectors of Rhode Island documents. Omissions of numbered documents from bound volumes are not infrequent, nor is there absolute uniformity in the make-up of the volumes. Unnumbered documents are found in one collection, and omitted from another. An effort has been made in the following collation to combine the contents of the collections examined for this purpose and mentioned on p. 4. The collation as given below, therefore, does probably not correspond to any one set of Rhode Island collected documents. No guarantee can be given, moreover, that there do not exist other more complete volumes. The docs. usually found missing from volumes are indicated by an asterisk.

Owing to the peculiar method of make-up of the Rhode Island documents, a departure has been made in the Rhode Island index. In all the other states the material indexed is in the nature of documents or reports. In Rhode Island, more or less of this material appears in the form of resolutions. These resolutions are in effect laws, and laws have not been indexed in the other states. When, however, in the case of Rhode Island, these resolutions have had a bearing on national issues as, for instance, the tariff, national banks, the sub-treasury, etc., and they have been the only published indication of the attitude of Rhode Island as to these issues, they have been included in this index in order that Rhode Island might be represented together with those other states which have published their attitude on these questions in the form of reports, governors' messages, etc.

GENERAL WORKS

1898. Descriptive survey of the agric., industrial, etc., features of Newport and Bristol cos. (14 A.R. bd. agric. 1898 repts. of institutes etc. pp. 1-16.)

1898-1904. Miscellaneous facts. Brief memoranda of early settlers, area, population, wages, prices, products, taxes, etc., etc. (14 A.R. bd. agric. 1898 (pp. 70-75)—*same* 1904.)

1899-1900. Legislative history and souvenir of R. I.; comp. by Wm. H. Taylor. 1900. 224 pp.

INDEXES

Index to the printed acts and resolves of, and of the petitions and repts. to the Gen. Assem. of . . . . R. I. from 1785 to 1850. By John R. Bartlett, secy. of state. Providence, 1856. xxxiv, 104 pp.

Same; from 1850 to 1862. By John R. Bartlett, secy. of state. Providence, 1863. xiii, 424 pp.

Same; from 1863 to 1873. By Joshua M. Addeman, secy. of state. Providence, 1875. lxviii, 131 pp.

STATE MANUAL

Manual with rules and orders for the use of the Gen. Assem. Providence, 1868-1904.

1867/8, 1st issue, under act of Jan., 1867 (Schedules Jan., 1867 : 172-173). Issued annually except that none were issued between 1868/9 and 1872/3. In 1875/6 the edition was 500 copies which has been gradually increased to present edition of 5000 copies. J. M. Addeman edited the Manual from 1875/6 to 1886/7. In 1887/8 it was edited by E. D. McGuinness, in 1888/9-1889/90 by S. H. Cross, 1890/1 by E. D. McGuinness, in 1891/2 by Geo. H. Utter, in 1892/3-1893/4 without special credit, 1894/5 by C. P. Bennett. The issue for 1887/8 was the first to contain a map of the state, a feature which has been regularly continued. In addition to the usual matter, i. e., copies of organic acts, electoral statistics, judicial directories, rules of the houses, etc., the R. I. manual contains a state chronology, complete lists of the principal state officers from early colonial days, and financial statistics, references to which have been included in their proper places in part 2 of this index.

BANKS

serial

In compliance with a resolution adopted in the U. S. House of Representatives on July 10, 1832, the Secretary of the Treasury laid before the next and each succeeding session of Congress until 1863 such statements, or returns, showing the capital, circulation, discounts, specie, deposits, etc. of the different banks and banking companies, as were submitted to the respective legislatures and governors of the several states within the year. Where these statements could not be obtained, such other information, as would best supply the deficiency, was required by the resolution to be presented. Such annual reports as were presented to and printed by the U. S. in consequence of the above resolution, have been added to the entries for the annual reports printed by the state. The deficiency information alluded to, and obtained in place of the annual reports, is usually in the form of a condensed statement of the anticipated report, and has been added to the non-serial entries below. Because of the multiplicity of series in the serial bank reports of Rhode Island it may be well to give here a synopsis of them.

1839-1843

Under sec. 6, Act of Oct. 1837 (Schedules Oct. 1837, p. 70 et seq.) it was ordered that the bank comrs. publish monthly in two of the newspapers published in Newport and two in Providence, a statement, or recapitulation, of such of the aggregate amts. of the several items in the returns of the banks made to them as they might deem expedient. This provision did not affect the ann. repts. of the comrs. under sec. 15, act of June 1836, and no legislation affecting the ann. repts. appears until June 1839 (Schedules June 1839: 28). The act of June 1839 repeals sec. 6, act of Oct. 1837, and directs the bank comrs. to make two reports annually to the General Assembly, viz., at the June session, showing the situation of the banks on the first Monday in June, and at the Jan. session, showing the situation of the banks on the first Monday in January. By act of Oct. 1839, sec. 7 (Schedules Oct. 1839, p. 54 et seq.), so much of the act of June 1839, as related to the time of the comrs.' rept. was repealed, and a provision substituted that the rept. made at the June and Jan. sessions each yr. should contain a statement of the condition of the banks as it may be on such days previous to the said June and Jan. session as the bank comrs. may in writing designate. The bank comrs. were abolished by act of Jan. 1843.

Under act of Jan. 1843 (Schedules Jan. 1843, p. 3 et seq.), in relation to bank returns. Sec. 1 provides that each incorporated bank make semi-annual returns at the May and Oct. sessions of the Gen. Assembly of the situation of said bank on some one day certain in the months of April and September resp., the day to be designated by the secy. of state. Sec. 3 directs the secy. of state to cause these bank abstracts to be published in the Schedules. Sec. 5 prescribes the form of the returns and directs the following new particulars to be added to the former returns: Increase of capital since last return, par value of shares in bank, last dividend when declared, rate per cent and amt., amt. of suspended paper, reserved profits at time of last dividend, amt. loaned on pledges of stock in bank, amt. of debts due and not paid, largest amt. of indebtedness of any one person or firm.

1843-1849. Abstr. of returns made to the Gen. Assem. by the several banks in R. I.

* The change in the time of making these returns is accounted for by act of Jan. 1843 (Schedules Jan. 1843: 45) which extends the time for making bank returns to Jan. 17.

1849-1855

Under act of June, 1849.

Under this act banks were to make to the Gen. Assembly an annual return at the Oct. session. The form of the return is given in the act (Schedules June, 1849: 3). An edition of 300 copies of this abstract was ordered to be printed in pamphlet form.

1849-1855. Abstr. exhibiting the condition of the banks and institutions for savings of R. I. from returns made to the Gen. Assem. By the secy. of state. Providence, 1849-1855.

With the exception of that of 1855 these abstracts are not included in the collected docs. For this reason, as well for the fact that the smallness of the edition (cf. supra) has rendered these reports uncommon, it has been thought well to give a collation of them here. Repts. of savings banks are usually bound up with these reports, but, as the former have separate pagination and individual title pages, they have been individually collated; see p. 30.

Sec. 2 of the act provides for the printing of 300 copies of each stmt. in pamphlet form and also for the distribution of the same.

1859-1904. Ann. stmt. exhibiting condition of the banks of R. I. . . . prepared by the state auditor. Providence, 1859-1904.

1 series

1849-1855

Under act of June, 1849.
These reports are not included in the collected documents. They are usually found bound up with the bank abstracts for corresponding years, but are dated, as will be seen by comparison, one month later than the bank abstracts. They have separate pagination and an individual title page and for that reason, and because they are often excluded from the collected docs., a collation of them is given here.

1845-1869. Ann. rept. on public schools in R. I. Providence, 1846-1870.

R. I. Hist. Socy., R. I. State Library.
Although Mr. Barnard was appointed in 1843, he made no report until 1845, and, during his term of office made no other reports than the two mentioned above. The Journal of the R. I. Institute of Instruction (v. 1-3, 1845/6-1848) was edited and largely supported by Mr. Barnard. It became the medium for publication of his reports, circulars, etc. "There is an excellent criticism of this Journal and of the history of R. I. public schools in the No. Amer. There is a slight variation in the title-pages of these two editions. The imprint is the same. The difference in paging is caused by the table of contents and the "Errata" being put at the end of the pamphlet in the 102 page ed. and at the beginning in the case of the other edition. It is the 112 page edition which is bound in Potter, Reports, etc. The compiler has found both the 102 p. ed. and the 112 p. ed. in the Acts, etc.

Report

1870-1904. Ann. rept. of bd. of education, 1-35, with ann. rept. of comr. of public schools, 26-60. Providence, 1871-1905.

None of this series is contained in the Acts, Resolves, etc. The supplementary numbering of these reports, i. e., 26-60 is misleading. It would seem to imply that 25 reports had been issued. As a fact only 23 were actually issued owing to the fact that Barnard made only two reports as is shown above.

* Printed separately, 7, 40 pp. 4°. Copy in R. I. State Library.

† This abstract is not printed. There is only a résumé by the secy. of state. It is referred to in the résumé as the first year for which returns have been made.

* Also found sometimes bound with Acts, Resolves, etc. of session of Oct. 1854.

† Sometimes found bound with May 1856 Acts and Resolves.

This is the last rept. made by the auditor under this act. In his rept. made to the May, 1872, sess. the auditor gives the reason for the omission of the customary report. At the session of Jan. 1871, the auditor, as actg. treasurer, in conjunction with the finance committee of each house, made a report, dated April 26, 1872, on the late treasurer's accounts. In his judgment, this report rendered a regular report from the auditor unnecessary, although, so far as the continuity of the auditor's records goes, the period from Jan. to May, 1871, seems not to be covered by any printed documents.

Up to 1827 the general treasurer's report of receipts and expenditures was merely an unclassified account current of income and outgo. In May, 1827, the receipts from fees and fines of the Supreme Judicial Court were for the first time made a separate item, and in May, 1828, that portion of the state revenue appropriated by act of Jan. 1828, for the support of public schools, was first set apart. Up to Oct. 1832, this latter account was made semi-annually, although the law required only an annual account at the May session. The account submitted at the Oct. session was called variously "Receipts and Expenditures of the School Fund" or "Receipts from Mngrs. of Lotteries and Auctioneers," this being the source of revenue of the School Fund, and "Moneys appropriated by law to Public Schools." In Oct. 1832, the Oct. account was for the first time omitted and henceforth the school fund was reported on annually at the May or June session.

Beginning with May, 1835, the general treasurer's semi-annual account for May is more clearly arranged in three distinct divisions, viz., first, the semi-annual balance acct., second, receipts and expenditures of revenue not appropriated by law for a particular purpose, and third, receipts and expenditures on account of public schools. In May, 1833, the expenditures for accounts allowed by the General Assembly were for the first time made a separate item. These accounts were paid at the General Treasury upon certificate of the secretary of the Assembly, the certificates showing only amount ordered paid and time when paid. Although these amounts formed a considerable part of the state expenditures it was not known at the General Treasury for what purpose, or in what county, the money was being paid.

In June 1842, an act was passed requiring that the general treasurer in his semi-annual statement classify the expense account as follows: A. Salaries. B. Pay of Senators. C. do. of Representatives. D. Courts; specifying the amts. paid in

each of the courts for certain purposes named in the act. E. Orders of Governor. F. Printing laws and schedules. G. Support of penitentiary. H. Accounts allowed by the General Assembly specifying the heads of expenditure. Under Receipts the general treasurer was to state separately the amounts received from various sources named in the act. This act also provided that hereafter the general treasurer was to include in his May statement the receipts and expenditures for the whole of the preceding year.

Receipts.—The general treasurer's report transmitted at the May 1831 session is accompanied by a folding table, viz., "Abstract of General Treasurer's report, showing by towns and counties, the classified receipts," later called Summary. The heads for receipts in May 1831, were the following: From town councils for licenses, from banks, lotteries, per cent on ticket (i. e., tax on vendors of foreign lottery tickets), auctioneers, civil commissions, Supreme Judicial Court, Common Pleas, school fund dividend, pedlers, jailers and total. These heads remained practically the same to the end of this series. Such variations as a more specific classification of revenues from banks are noted under "Banks" in this analysis.

Expenditures.—The general treasurer's report transmitted at the Oct. 1832 session adds the acct. of expenditures to those of receipts in the "Summary." The heads for expenditures in Oct. 1832 are: Salaries, Senators, Representatives, Order of the Governor, Supreme Court, Common Pleas. In May, 1833, there are added the following: Publishing Laws, Supt. of Schools, Bank Stock, and Accounts allowed by the General Assembly. In May, 1839, there is added State Prison. Later there are added Teachers' Institutes and Education of the deaf, dumb, etc. In this form they remain practically the same to the end of this series.

Receipts.—Sections 2, 5, 7 of the act of Jan. 1856 relate to the accounting of receipts, and make no material changes in the form hitherto in use, except possibly in stipulating (sec. 7) a more explicit account of the funds.

Expenditures.—In the act of Jan. 1856, in relation to the treasury of the state and the duties of the officers thereof, the general treasurer is required to classify the expenditures as follows: A. Salaries. B. Pay of members of the General Assembly. C. Expenses of the General Assembly. D. Courts, specifying the amount paid in each of the courts for six different purposes named in the act. E. Orders of the Governor. F. Printing laws and schedules and all printing ordered by the General Assembly. G. Support of state prison. H. Accounts paid out of money appropriated by the General Assembly for 16 various purposes severally named in the act.

Estimates.—Sec. 8 of the act of Jan. 1856, required of the general treasurer a statement of the estimates of expenditures to be made with his annual report at the May session of the General Assembly, this is now made at the Jan. sess.

TOURO JEWISH SYNAGOGUE FUND

serial

In June, 1823, the General Assembly by legislative act (Schedules June, 1823: 61) accepted a legacy of $10,000 from Abraham Touro, for the purpose of supporting the Jewish Synagogue in Rhode Island. The money was to be appropriated as the General Assembly of R. I. together with the municipal authorities of Newport might determine.

Under act of June, 1834.

RAILROADS

serial

Ann. statistical returns of r.r. operations may be found in the R. I. Manual 1877/8 et seq.

1 series

A comr. was, at first, appointed by the governor to serve only for the political year. This officer made examinations of the railroads in the spring and fall of the year. The early reports are exceedingly meager, being, in some cases, only a few lines in length. For many years investigations of accidents form the chief burden of the reports. The report for 1867, made to the Jan. 1868 session, is the first to contain reports of individual roads, although the returns are classified as early as Jan. 1865.
